

The Environment

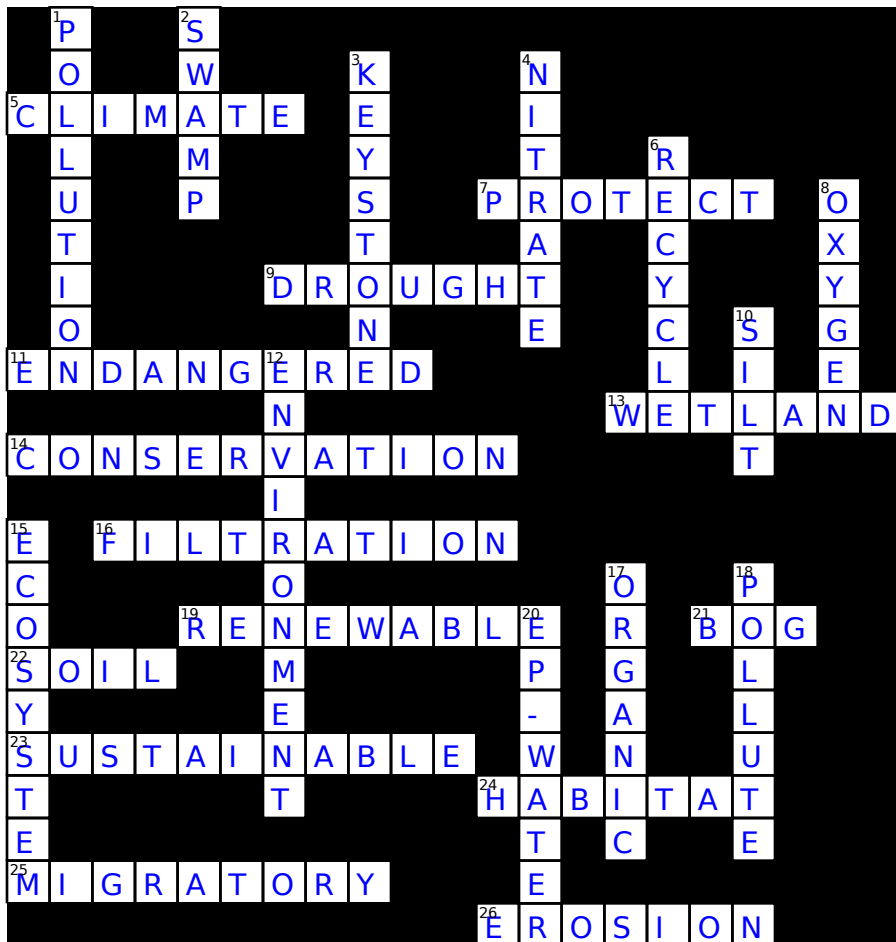

Across

- 5 Meteorological conditions that prevail in a region
- 7 Guard from attack
- 9 A long period with little or no rain
- 11 In imminent danger of extinction
- 13 A low area where the land is saturated with water
- 14 The preservation and careful management of the environment and of natural resources
- 16 Slow passage of a liquid through filtering
- 19 Capable of being replacable
- 21 Wet spongy ground of decomposing vegetation
- 22 Planting ground
- 23 Supportable, viable
- 24 The type of environment in which and organism or group normally lives or occurs
- 25 Behavior of animals that move seasonally
- 26 Natural process as weather or abrasion by which material is lost

Down

- 1 Contamination of the air, water or soil
- 2 Low land, seasonal flooded
- 3 An archaic wetland and botanical garden on the westside of El Paso.
- 4 Salts of this compound are used as fertilizer
- 6 Minimizing waste by recovering materials and transforming them into new products
- 8 Gaseous element with the atomic number 8
- 10 Material composed of fine mineral particles intermediate in size between sand and clay
- 12 The are in which something exists or lives
- 15 The most favorable environment for a plant of animal to live
- 17 free from chemical additives
- 18 To make impure
- 20 Your local water company
